Pumpkin patches. Corn mazes. Fall festivals. These seasonal hotspots are bustling with activity, but rarely have access to power for security cameras.

That's where mobile security trailers shine:

- Solar-powered
- Infrastructure-free
- 24/7 360-degree video coverage
- People Detection Alerts, and more

Whether it's a dirt lot or a downtown street, mobile security trailers deliver flexible, rapid coverage that's made for the busyness of fall.
